Subtotal: \$1,640.00

Discounts (10%): \$164.00

Total: \$1,476.00

## Notes:

11 total videos were rendered, but since 2 were missing, I'm only charging for 9.

I don't remember if there were more videos that were recorded. I believe I might have recorded 6, but since this invoice is late, I find it fair to charge \$50 for each recording and just going to charge for 4.

Also giving an additional 10% discount for the invoice coming in about a year late, and things changing and not being able to account for the 2 videos that went missing in October this year.
